II.1.4) Short description

The Council wishes to secure appropriate facilities for the transport and subsequent treatment / processing of street sweepings waste. This waste stream does not include waste collected from domestic or commercial properties. The waste is seasonal in composition, volume and weight. This material is collected separately by the Council, in its dedicated fleet of street sweepers.

The actual street sweeping is not part of this procurement exercise. However, the haulage of the collected street sweepings from the Council Waste Transfer Station (WTS) at Davyfield Road is part of the contract.

Bidders may also submit a variant bid where they propose the Council delivers street sweepings, direct to the contractor's own Delivery Point (instead of the Council's WTS at Davyfield Road) and from which haulage of the material is then transferred out to the treatment facility by the contractor.
