The initial call-off term will be for 5 years with an option to extend for up to a further 24 months.

The service will consist of the the timely provision of:

- Domestic Lift Maintenance
- Technology Enabled Care (including Monitoring and Response elements)
- Long Term Wheelchair Product Provision and Repair

- Diagnostic Equipment Provision
- Long Term Conditions Management Service
- Major Adaptations
- Clinician Support Services

For each component of service listed the provider shall also carry out maintenance of equipment, collection of items no longer required, recycling of equipment and robust data gathering to support contract management.

This service will ensure that residents in Buckinghamshire, who have either healthcare or social care needs (or a combination of both) are provided with high quality equipment, aids and/or adaptations that enable them to stay independent and live healthy lives for longer, and crucially to remain at home rather than requiring formal social and healthcare support.
