In accordance with The Public Contracts (Scotland) Regulations 2015, Regulation 74, the Council intend to establish a Flexible Framework to secure external providers who can supplement the Council’s internal early learning and childcare provision. II.2.4) Description of the procurement

The Council has a statutory duty to make pre-school education available for eligible children under the Standards in Scotland's Schools Act 2000. The Children and Young People (Scotland) Act 2014 and Statutory Guidance set out the increased entitlement to 1140 hours for eligible children and places a duty on the Council to offer increased flexibility to parents as to where and how their child can access their Early Learning and Childcare entitlement. Scottish Government made a commitment to extend the entitlement to all eligible children to 1140 hours for Early Learning and Childcare by 2020/2021 as set out in 'A Blueprint for 2020; Expansion of Early Learning and Childcare in Scotland' (2016).

The Funding Follows the Child approach places choice in parents' and carers' hands allowing them to access their child's funded entitlement with a range of ELC providers, therefore the Council are seeking to set up a Flexible Framework for the provision of early learning and childcare services under the Light Touch Rules contained within the Public Contracts (Scotland) Regulations 2015. Lot 1 of this Flexible Framework sets out the minimum standards required from the private, voluntary and independent setting.

All providers who apply and meet the national standards, legislation, the Council's procedural requirements as set out in the Invitation to Tender and accept the rates and contract terms set out by the Council shall be accepted to deliver funded provision through the Flexible Framework.

The Contracting Authority does not intend to include a sub-contract clause as part of community benefits (as per Section 25 of the Procurement Reform (Scotland) Act 2014) in this contract for the following reason:

The framework has been divided into lots to support SMEs to gain access to opportunities through the flexible framework. The nature of the services delivered are unlikely to be delivered through sub-contractors and therefore a sub-contract clause is not suitable for

this type of services framework.

The Contracting Authority does not intend to include any community benefit requirements in this contract for the following reason:

The Flexible Framework does not provide a guarantee of work, therefore community benefits are not being made mandatory within the

tender.

The award of a funded placement is dictated by parental choice therefore no work is guaranteed.
