- 45232431 - Wastewater pumping station

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

Severn Trent Water (STW) wish to establish the Qualification System for the purpose of sourcing Modular Treatment Equipment Solutions

This equipment is applicable to a series of wastewater management treatment phases that are to be handled in individual and specific tanks. Each installation at a defined STW site, may require any number of these tanks depending upon its upgrade requirements.

Wastewater is defined as domestic sewage, industry sewage and ground water (either directly from the drainage system, or temporarily held within storm tanks). Note that many of STW facilities have this incoming treatment requirements as a single input and not as separate sources (combined sewage).

The following treatment phases are to be considered;

1. Preliminary Treatment

2. Primary Treatment

3. Secondary Treatment

4. Tertiary Treatment

II.2.8) Duration of the qualification system

Start date

21 February 2025

End date

31 August 2026

Section IV. Procedure

IV.2) Administrative information

IV.2.4) Languages in which tenders or requests to participate may be submitted

English

Section VI. Complementary information

VI.4) Procedures for review

VI.4.1) Review body

Severn Trent Water Ltd
