**Section II: Object**

**II.1) Scope of the procurement**

**II.1.1) Title**

3125/SW Low Carbon Smart Factory Industrial Internet of Things (IIoT) - Tender One

Reference number

3125/SW

**II.1.2) Main CPV code**

- 35125100 - Sensors

**II.1.3) Type of contract**

Supplies

**II.1.4) Short description**

The AMRC North West as part of the University of Sheffield are tendering for multiple lots within an overarching

project to demonstrate the capability of the Industrial Internet of Things (IIoT) and smart technology usage cases to

reduce the carbon footprint of a manufacturing site. The project will raise awareness of the latest technology and will

be retro-fittable to legacy manufacturing facilities. The technology will be able to provide a tangible benefit to the

carbon footprint of a manufacturing site through data capture and visualisation and / or machine cognition.

Please note that two tenders associated with this project were ran concurrently. These are 3125/SW and

3126/SW. The two tenders have differing cost/quality weightings. In the contract notice it was advised that the University reserved the right not to award any lot or all lots.

Scope of Requirement:

The equipment / system is required to demonstrate how IIoT can be used in a manufacturing environment to

understand, influence, and change the key levers in carbon reduction. A range of technologies will be implemented

to understand energy usage, occupancy and asset parameters, environmental conditions, utilisation of micro grid

technology and visualisation through a user-friendly dashboard. The system will need to be supported or controllable

to evolve and integrate system adaptations and enlargement, to support the project goals of demonstrating the

potential benefits. The AMRC/University requires a warranty, delivery to site and on-site installation, commissioning,

and acceptance testing. The supplier needs to be able to maintain and demonstrate the ability to maintain the future

operation of the system. The AMRC/University requires a service and maintenance contract for the duration of the

manufacturer's warranty and to not invalidate the manufacturer's terms and conditions of warranty. Training and

technical support is required within the scope of the tender to assist and embed the use of the equipment/system.

The full technical specification was within the tender documentation.

If you have any questions or comments in relation to this tender they must be submitted via the In-tend System, this

can be accessed at <https://in-tendhost.co.uk/Sheffield>

#### **II.1.6) Information about lots**

This contract is divided into lots: Yes

#### **II.1.7) Total value of the procurement (excluding VAT)**

Value excluding VAT: £929,642

### **II.2) Description**

#### **II.2.1) Title**

The supply, Installation and Maintenance of ANPR

Lot No

1

#### **II.2.2) Additional CPV code(s)**

- 34996300 - Control, safety or signalling equipment for parking facilities
- 48150000 - Industrial control software package
- 48420000 - Facilities management software package and software package suite

#### **II.2.3) Place of performance**

NUTS codes

- UKD - North West (England)

#### **II.2.4) Description of the procurement**

This lot relates to the supply, installation and maintenance of an ANPR system. Please refer to the tender documents

for further information.

The system will need to be supported or controllable to evolve and integrate system adaptations and enlargement,

to support the project goals of demonstrating the potential benefits. The AMRC/University requires a warranty,

delivery to site and on-site installation, commissioning, and acceptance testing. The supplier needs to be able to

maintain and demonstrate the ability to maintain the future operation of the system. The AMRC/University requires a

service and maintenance contract for the duration of the manufacturer's warranty and to not invalidate the

manufacturer's terms and conditions of warranty. Training and technical support is required within the scope of the

tender to assist and embed the use of the equipment/system.

Please refer to the tender documents for full information in regard to our requirement, the specification and the

contract particulars.

#### **II.2.5) Award criteria**

Quality criterion - Name: As per tender documents / Weighting: 79

Price - Weighting: 21

#### **II.2.11) Information about options**

Options: No

### **II.2) Description**

#### **II.2.1) Title**

## The supply, Installation and Maintenance of Augmented Reality (Digital Twin)

Lot No

2

### **II.2.2) Additional CPV code(s)**

- 48150000 - Industrial control software package
- 48420000 - Facilities management software package and software package suite
- 72212326 - Mapping software development services

### **II.2.3) Place of performance**

NUTS codes

- UKD - North West (England)

### **II.2.4) Description of the procurement**

This lot relates to the supply, installation and maintenance of augmented reality technology (digital twin). Please

refer to the tender documents for further information.

The system will need to be supported or controllable to evolve and integrate system adaptations and enlargement,

to support the project goals of demonstrating the potential benefits. The AMRC/University requires a warranty,

delivery to site and on-site installation, commissioning, and acceptance testing. The supplier needs to be able to

maintain and demonstrate the ability to maintain the future operation of the system. The AMRC/University requires a

service and maintenance contract for the duration of the manufacturer's warranty and to not invalidate the

manufacturer's terms and conditions of warranty. Training and technical support is required within the scope of the

tender to assist and embed the use of the equipment/system.

Please refer to the tender documents for full information in regard to our requirement, the specification and the

contract particulars.

#### **II.2.5) Award criteria**

Quality criterion - Name: As per tender document / Weighting: 79

Price - Weighting: 21

#### **II.2.11) Information about options**

Options: No

### **II.2) Description**

#### **II.2.1) Title**

The supply, Installation and Maintenance of BMS Monitoring (IIoT)

Lot No

3

#### **II.2.2) Additional CPV code(s)**

- 35125100 - Sensors
- 48150000 - Industrial control software package
- 48420000 - Facilities management software package and software package suite

#### **II.2.3) Place of performance**

NUTS codes

- UKD - North West (England)

#### **II.2.4) Description of the procurement**

This lot relates to the supply, installation and maintenance of BMS Monitoring technology (IIoT). Please refer to the

tender documents for further information.

The system will need to be supported or controllable to evolve and integrate system adaptations and enlargement,

to support the project goals of demonstrating the potential benefits. The AMRC/University requires a warranty,

delivery to site and on-site installation, commissioning, and acceptance testing. The supplier needs to be able to

maintain and demonstrate the ability to maintain the future operation of the system. The AMRC/University requires a

service and maintenance contract for the duration of the manufacturer's warranty and to not invalidate the

manufacturer's terms and conditions of warranty. Training and technical support is required within the scope of the

tender to assist and embed the use of the equipment/system.

Please refer to the tender documents for full information in regard to our requirement, the specification and the

contract particulars.

#### **II.2.5) Award criteria**

Quality criterion - Name: As per quality questions in tender document / Weighting: 79

Price - Weighting: 21

#### **II.2.11) Information about options**

Options: No

### **II.2) Description**

#### **II.2.1) Title**

The supply, Installation and Maintenance of Digital Dashboards

Lot No

4

**II.2.2) Additional CPV code(s)**

- 42960000 - Command and control system, printing, graphics, office automation and information-processing equipment
- 48150000 - Industrial control software package
- 48420000 - Facilities management software package and software package suite

**II.2.3) Place of performance**

NUTS codes

- UKD - North West (England)

**II.2.4) Description of the procurement**

This lot relates to the supply, installation and maintenance of technology required to create digital dashboards from

smart and IoT technology. Please refer to the tender documents for further information.

The system will need to be supported or controllable to evolve and integrate system adaptations and enlargement,

to support the project goals of demonstrating the potential benefits. The AMRC/University requires a warranty,

delivery to site and on-site installation, commissioning, and acceptance testing. The supplier needs to be able to

maintain and demonstrate the ability to maintain the future operation of the system. The AMRC/University requires a

service and maintenance contract for the duration of the manufacturer's warranty and to not invalidate the

manufacturer's terms and conditions of warranty. Training and technical support is required within the scope of the

tender to assist and embed the use of the equipment/system.

Please refer to the tender documents for full information in regard to our requirement, the

specification and the  
contract particulars.

### **II.2.5) Award criteria**

Quality criterion - Name: As per quality questions in tender document / Weighting: 79

Price - Weighting: 21

### **II.2.11) Information about options**

Options: No

## **II.2) Description**

### **II.2.1) Title**

The supply, Installation and Maintenance of Environmental Monitoring (IIoT)

Lot No

5

### **II.2.2) Additional CPV code(s)**

- 35125100 - Sensors
- 48150000 - Industrial control software package
