Scope

Description

Mobile CT Lung Screening Service - The Lung Cancer Screening programme invites people between the ages of 55-74 who have ever smoked, to an NHS lung Health Check.

At the lung health check a participant is asked a series of questions to calculate their risk of having lung cancer now or in the future. If the person is thought to be of high risk they are offered a low dose CT scan.

The requirement would be framed around a mobile screening unit with CT modality, IT interoperability, for both staffed and unstaffed provision.
