II.2.4) Description of the procurement

The Area Planning Board (APB) is a strategic partnership of all agencies across Swansea and Neath Port Talbot who are committed to tackling and reducing the harms associated with substance use. The Board is responsible for the monitoring, planning and development of

treatment services, coordinating funding from the Welsh Government and other sources to ensure that people have access to services that meet their needs and are designed to improve their personal wellbeing.

The Area Planning Board has taken the decision to embark on a programme of transformation to improve service provision and will aim to create an integrated Public Health approach to the prevention of and treatment for substance use scheduled to commence from April 2025.

The new 'whole system approach' will include replacing the current range of substance use services through commissioning a new integrated highly visible, accessible and effective substance use service that delivers integrated treatment and support to meet the needs of the diverse population of Swansea and Neath Port Talbot.

As a result, we are bringing together a range of stakeholders (commissioners from NPT CBC, Swansea CBC, Swansea Bay HB, HMPPS, Police & Crime Commissioner South Wales, South Wales Police, HM Fire & Rescue) to explore the potential for collaboration. We are bringing together commissioners, providers and people with lived experience to co-design the future service model using a tried and tested interactive approach based on the appreciative inquiry process. This enables providers to play an integral part in creating the services and begin the process of collaborating and building strong, trusting relationships.

We welcome providers of substance use services to attend face-to-face workshops on Tues 5th March (1-3pm), Tues 26th March (1-3pm), Tues 16th April (1-3pm) @ the Idris Room, HQ Urban Kitchen - The Old Police Station, Llys Glas, 37 Orchard St, Swansea SA1 5AJ. Please note there will be no online option for joining available.
