II.2.5) Award criteria

Price

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

Royal United Hospitals Bath NHS Foundation Trust (referred to as "RUH") intends to award a contract under Regulation 32(2)(b)(ii) to Bath and West Community Solar 3 Limited, (referred to as Bath and West) for the supply and installation of a community funded, solar panel system, for a period of twenty-five (25) years.

This contract will involve the RUH granting a lease to Bath and West to install solar panel technology in available roof space above the hospital estate. In exchange, Bath and West will provide a community funded solar installation, raised via their community benefit society.

RUH will be enabled to purchase electricity generated at a discounted rate to that currently paid from a grid supply. It is estimated that the Trust will use 100% of the electricity generated by the solar installation.

Bath and West is a not-for-profit organisation, based in the Bath area, with key locally based funding streams and evidence of other community funded projects that benefit the local area. They develop renewable energy projects for community ownership and generate benefits through the use of community funds.

In awarding to Bath and West, RUH is satisfying key strategic targets for the ongoing delivery of sustainable and social value projects.

- 1) The RUH does not have capital funding available to procure solar panels, Therefore, awarding a contract to this organisation will enable the Trust to modernise its energy provision without having to provide capital outlay.
- 2) The installation will utilise the currently unused roof space and will not impact on the surrounding landscape of the Trust.
- 3) RUH has key social value and sustainability targets, which include increasing ties with the local community through partnership projects and achieving carbon net zero. Bath and West can demonstrate other renewable energy projects within the local area, providing education and information regarding the benefits of renewable energy and providing a bridge between the Trust and local community support and development. Awarding a contract to this company will demonstrate improved delivery of social value targets and improved sustainability including the delivery of Carbon net zero aspirations.

RUH has reviewed the factors described in the proposal and considered Bath and West's niche position in the local area and have assessed that awarding this contract enables the Trust to satisfy an optimal combination of commercial, sustainability and social value targets.

RUH will observe a 10-day standstill from the date of this notice before entering into a contract with Bath and West Bath and West Community Solar 3 Limited.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

Section V. Award of contract/concession

A contract/lot is awarded: Yes

V.2) Award of contract/concession
