Buyer's address

<http://www.procurementservicesgroup.org.uk>

**I.2) Information about joint procurement**

The contract is awarded by a central purchasing body

**I.4) Type of the contracting authority**

Regional or local authority

**I.5) Main activity**

General public services

---

## **Section II: Object**

### **II.1) Scope of the procurement**

#### **II.1.1) Title**

Electrical Vehicle Charging Points and Associated Services Y21002

Reference number

DN482982

#### **II.1.2) Main CPV code**

- 34000000 - Transport equipment and auxiliary products to transportation

#### **II.1.3) Type of contract**

Supplies

#### **II.1.4) Short description**

KCS professional services, acting for and on behalf of Kent County Council (KCC) wish to create a regional,

user friendly, time and cost-effective framework agreement for the supply of electrical vehicle charging points

and associated services.

This framework will include two lots:

Lot 1: Electrical vehicle charging points and associated services

Initially in Kent there will be 156 sites to start with, which require a range of charger speeds. It is expected that

the supplier will fund most of the works and provide a revenue share back to the customer. Government Grants

(namely On-street Charging Scheme) could be applied for as part of the project and other external funding may

be provided by project partners. The SE7 (South East Seven) are looking for suppliers to provide an affordable

charging network that will be widely used within the respective areas.

Following the Governments pledge to cut carbon emissions by 80 % by 2050, the sale of new petrol and diesel

cars will be banned by 2035. This framework agreement will assist regional public sector organisations in being

prepared for the increase in demand for charging points.

Lot 2: Bus charging solutions

Initially in Kent there is a requirement for an EV infrastructure that accommodates the power requirements and

charging profile of Fastrack services. Infrastructure will need to be future proofed, taking into account service

expansion as well as ensuring charge point hardware supports open protocol standards to allow flexibility of

access and shared infrastructure opportunities to support increased electric bus future transition and wider

community uptake.

The opportunities will need to link and support the wider regeneration plans for the area allowing local

communities to benefit from sustainable transport modes, access to charging infrastructure, local energy

generation, support zero carbon plans and local air quality.

### **II.1.6) Information about lots**

This contract is divided into lots: Yes

### **II.1.7) Total value of the procurement (excluding VAT)**

Lowest offer: £0.1 / Highest offer: £750,000,000 taken into consideration

## **II.2) Description**

### **II.2.1) Title**

Electrical Vehicle Charging Points and Associated Services

Lot No

1

### **II.2.2) Additional CPV code(s)**

- 34000000 - Transport equipment and auxiliary products to transportation

### **II.2.3) Place of performance**

NUTS codes

- UK - United Kingdom

### **II.2.4) Description of the procurement**

It is expected that the supplier will fund most of the works and provide a revenue share back to the customer. Government Grants (namely On-street Charging Scheme) could be applied for as part of the project and other external funding may be provided by project partners. Following the Governments pledge to cut carbon emissions by 80 % by 2050, the sale of new petrol and diesel cars will be banned by 2035. This framework agreement will assist regional public sector organisations in being prepared for the increase in demand for charging points.

### **II.2.5) Award criteria**

Quality criterion - Name: Quality of service/added value / Weighting: 70

Price - Weighting: 30

### **II.2.11) Information about options**

Options: No

### **II.2.13) Information about European Union Funds**

The procurement is related to a project and/or programme financed by European Union funds: No

## **II.2.14) Additional information**

This is a regional framework in conjunction with KCC and will allow access to all public sector bodies, located

within the SE7 (South East Seven) locations, which are:

- Brighton and Hove,
- East Sussex,
- Hampshire,
- Kent,
- Medway,
- Surrey,
- West Sussex.
