Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated without a prior call for competition

- Extreme urgency brought about by events unforeseeable for the contracting authority

Explanation:

MaPS intends to directly award a contract for contact centre services to the incumbent provider through CCS framework RM6181. The direct award procedure under the framework is only available in exceptional circumstances. However, we believe that MaPS requirements are exceptional circumstances on this occasion. This is because a decision has been taken by the MaPS board to bring the service in house in the next 24 months, a new strategy which better reflects customer and organisational needs. This strategy will see a significant reduction in the numbers of customers served by the incumbent provider over the term of the contract. The contract awarded to the incumbent is intended to be short term interim solution which will provide continuity of service, least disruption to customers and lowest cost given the winding down of the outsourced service
