Brief Description of Requirement

This tender will appoint a supplier to implement a research outcomes data collection system to ensure UKRI is able to continue to collect outputs, outcomes and impact data from its award holders. This includes:

- the ingestion of relevant data from UKRI (for example, but not limited to information on awards, collaborating organisations, and research team contact details).
- collecting data from awardees and their teams on a set of questions provided by UKRI.
- automatic data collection from third party organisations (for example but not limited to data linked to persistent identifiers and automated outputs such as publications).
- validate and quality assure the final data set.
- the delivery of the final dataset to UKRI through an automated channel (for example

such as an API).

This needs to be supported by a range of structures and services to underpin the general process. These include process governance, stakeholder engagement, data information and governance, and contract management and support.

Please ensure you review all attached information to ensure a full understanding of this requirement. All attachments can be found with the Supplier Attachments tab within the Jaggaer eSourcing Portal.
