The service will build upon the strengths of previous iterations of commissioned Wellbeing Services in Lincolnshire, and is informed by legislative requirements, local strategies, best practice guidance and local needs and demand analysis.

The WBS is aligned to four core aims:

- 2) Improve or prevent the deterioration of individuals' health, wellbeing, and overall quality of life;
- 3) Enhance independence at home, improve individuals' ability to self-care and access appropriate supporting structures and community resources;
- 4) Reduce or delay escalation to statutory support services.

The service outcomes the Council seeks to achieve through the delivery of the WBS are;

- To improve accessibility to support services for individuals through both direct delivery and

system change;

- To identify and influence a network of community resources and partnering organisations to provide a balance of direct delivery and onward referral so there is no duplication of provision;
- To increase the number of people who can live independently in their own home with the use of technology and short-term support;
- To deliver an equitable service that is continually monitored through a health inequalities lens;
- To be a dynamic partner with the Council with a focus on continual improvement and development;
- To increase awareness of the service and its offer to ensure appropriate service users are identified and seek early interventions;
- To develop a digital self-help offer, which contributes to the overall digital programmes in the county, so individuals, who can, can self-serve as appropriate;

The Council intends to host a Provider Event following the publication of this Contract Notice, date to be confirmed. The purpose of this event will be two-fold. Secondly; there is the potential of networking and the possibility to explore joint bidding arrangements.

Whilst the Council intends to award to a single provider it welcomes bids involving partnering or consortia arrangements. As set out above the event will be an opportunity to consider and further develop these arrangements with other providers.

In addition to the event there will also be a subcontractors register. If you are not in a position to be a Lead Provider but still wish to be considered to participate as a subcontractor for any elements of the WBS, you can agree for your organisational details to be entered on the register that will then be shared with other prospective bidders to aid in facilitating this.

If you wish to express and interest in either attending the Provider Event and or having your details shared as part of a Subcontractors Register then please email:
