Financial references and internal credit checks will be undertaken to analyse your organisation's financial position and determine the level of risk it would represent to the authority, having regard to the contract requirement and value, criticality and the nature of the market. The assessment of risk is based on sound business judgement rather than just a mechanistic application of financial formulae. If the authority deems the financial position of the organisation to be acceptable, the threshold is passed. If the threshold is not passed, then the Authority will disqualify the organisation, and the organisation will be rejected from the procurement process. Depending on timescales, further financial checks may be carried out by the authority between receipt of tenders and contract award which may impact on the contract award decision.

### **Technical ability conditions of participation**

## **Other information**

### **Applicable trade agreements**

- Government Procurement Agreement (GPA)

### **Conflicts assessment prepared/revised**

Yes

---

## **Procedure**

### **Procedure type**

Open procedure

## **Justification for not publishing a preliminary market engagement notice**

Expression of Interest was done with a Framework provider originally, as the original route was to use a Framework provider, the market leaders are known. After further discussion an Open Procedure was the best route to take for this procurement.
