Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Restricted procedure

Accelerated procedure

Justification:

Multiple PQQ errors from suppliers; providing corporate responses where specific case studies were provided, to exceeding page limits with irrelevant information resulting in relevant details not being evaluated.

As a result of there being only one supplier remaining, proceeding to the ITT stage would not provide value for money. Clarifying the existing responses would not be possible due to the fails being a result of clear breaches of the specified requirements.

By providing detailed feedback to those suppliers that failed, and recommencing the procurement, the same suppliers will be able to submit compliant responses to the new exercise, whilst other suppliers will also be able to submit.

To maintain the critical timelines for each project, the PQQ followed the accelerated Restricted procedure, with shortened PQQ and ITT periods, in line with Regulation 28(10). The PQQ period was shortened to 15 days, and the ITT period to 21 days.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes
