# **Section II: Object**

## II.1) Scope of the procurement

## II.1.1) Title

NGET Call For Innovation - Innovative Substation Auxiliary Load Solutions

Reference number

CFI-001

## II.1.2) Main CPV code

• 51112200 - Installation services of electricity control equipment

## II.1.3) Type of contract

Services

### II.1.4) Short description

The Call for Innovation (CFI) is an approach to the market to see what products and services are available in the industry with funding coming from Ofgem's Network Innovation Allowance.

A CFI is not a formal competitive tender process but is an approach to the market with a specific problem statement or topic of interest that National Grid would like to hear ideas about from the marketplace.

All information received will be used to consider whether we want to engage with a specific supplier or whether we believe a competitive tender approach is required. Essentially this CFI will inform or dictate our procurement strategy.
