I.5) Main activity

Other activity

Property

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Concession notice for the hydrogen refueling station at Michelin Scotland Innovation Parc

Reference number

MSIP_HRS1

II.1.2) Main CPV code

- 45223720 - Petrol/gas stations construction work

II.1.3) Type of contract

Works

II.1.4) Short description

Michelin Scotland Innovation Parc Ltd is joint venture between Michelin, Scottish Enterprise and Dundee City Council. It was formed to drive growth and diversity in the Scottish economy focused on sustainable mobility and low carbon energy.

The Dundee Hydrogen Bus Deployment Project is being delivered to enable the growth in hydrogen mobility in the region, commencing with hydrogen buses and the hydrogen refuelling infrastructure.

Michelin Scotland Innovation Parc is seeking to procure a specialist company to:

- design, build, commission, maintain and operate a Hydrogen Refuelling Station on the Parc
- to generate and supply green hydrogen for a minimum of 12 hydrogen fuel cell electric buses and any additional clients within the period of the contract
- to provide a capital contribution for the installation and operations to enable hydrogen supply by early 2022

II.1.5) Estimated total value

Value excluding VAT: £8,000,000

II.1.6) Information about lots

This concession is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 09120000 - Gaseous fuels
- 24111600 - Hydrogen
- 63121110 - Gas storage services

II.2.3) Place of performance

NUTS codes

- UKM71 - Angus and Dundee City

Main site or place of performance

Dundee - Michelin Scotland Innovation Parc

II.2.4) Description of the procurement

The principal objective of this procurement is to appoint a single Contractor to provide the following works to Michelin Scotland Innovation Parc in relation to a Concession Agreement for the production and delivery of green hydrogen as laid out below:

- Design, manufacture, installation, commissioning, operation and maintenance over a period to be determined, but estimated to be in the region of 7 years:
- Electrolysis or an equivalent clean technology as the means of green hydrogen generation
- Gas compression and storage, optimising use of on-site generation of renewable energy
- Dispensing and payment services
- The station is to be designed to have sufficient generation capacity to supply the requirements of the proposed Dundee Hydrogen Bus Deployment Project, whilst retaining sufficient surplus capacity to accommodate an additional requirement from a range of vehicles/clients (estimated capacity of c.500kg).

- Future scalability of refuelling to meet demand and connection types should be considered.
- The electrolysis is expected to utilise the output of the two on-site wind turbines and potential solar array.
- The hydrogen refuelling station is to be part-funded through a combination of Public Sector capital grants from Dundee City Council and Transport Scotland, and a capital contribution from the successful bidder.
- The supply of hydrogen for the buses within the Dundee Hydrogen Bus Deployment Project will be at an agreed price per kg

Further description is presented in the Call for Applications Document.

II.2.5) Award criteria

Concession is awarded on the basis of the criteria described below:

- Criterion: Quality 60%
- Criterion: Price 40%

II.2.6) Estimated value

Value excluding VAT: £8,000,000

II.2.7) Duration of the concession

Duration in months

84

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: Yes

Identification of the project

FCH JU JIVE2 Dundee Hydrogen Bus Deployment Project

II.2.14) Additional information

Economic operators may be excluded from this competition if they are in any of the

situations referred to in Regulation 40 of the Concession Contracts (Scotland) Regulations 2016.

Section III. Legal, economic, financial and technical information

III.1) Conditions for participation

III.1.2) Economic and financial standing

Selection criteria as stated in the procurement documents

III.1.3) Technical and professional ability

Selection criteria as stated in the procurement documents

III.2) Conditions related to the concession

III.2.2) Concession performance conditions

Please refer to the conditions and selection criteria referred to in the Call for Applications Document and PQQ.

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

IV.2) Administrative information

IV.2.2) Time limit for submission of applications or receipt of tenders

Date

5 May 2021

Local time

12:00pm

IV.2.4) Languages in which tenders or requests to participate may be submitted

English

Section VI. Complementary information

VI.1) Information about recurrence

This is a recurrent procurement: No

VI.2) Information about electronic workflows

Electronic payment will be used

VI.3) Additional information

This is a call for applications to participate in a procurement.
