The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- New works/services, constituting a repetition of existing works/services

Explanation:

GitLab is the main repository for projects and system code, and it is part of the NHS Business Services Authority's Cloud First strategy. GitLab is a DevOps tool that combines the ability to develop, secure, and operate and deploy software all through a single application. With the increasing demand for services to open source their code to the public due to GDS assessment requirements, it's important that the right tools with adequate security are used to look after the NHS Business Services Authority's code.

Desktop research has confirmed that Gitlab is still the most appropriate product, and this has been re-affirmed by Technology colleagues for this renewal to ensure continuity of service and mitigate security risks.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

Section V. Award of contract

A contract/lot is awarded: Yes

V.2) Award of contract
