Our Future Health aims to be the UK's largest ever health research programme. It is designed to help people live healthier lives for longer through the discovery and testing of more effective approaches to prevention, earlier detection and treatment of diseases.

Our Future Health aims to procure:

- secure and scalable public cloud infrastructure to support our health research programme
- a trusted research environment (TRE) to enable registered and approved researchers to access and use data within a secure environment
- a partner to manage the billing of cloud compute and storage costs for researchers using the TRE
