The inventory held within Sellafield Ltd's Special Nuclear Materials (SNM) value stream is at such a point, that the Sellafield Product and Resides Stores (SPRS) Retreatment Plan (SRP) is due to start operating in FY 2028/29 to retreat and repackage nuclear material to enable safe and secure long-term storage.

Sellafield Ltd requires manufacturing capability (using Sellafield Ltd's NPI process) for the

supply of quality, repeatable, volume manufactured products for the reprocessing and repackaging operations within SRP for the long-term storage of the nuclear material (the SRP Products).
