#### **II.2.4) Description of the procurement at the time of conclusion of the contract:**

Following the success of Salisbury's Dynamic Purchasing System for Apprenticeships and Education, this new framework is being opened as the DPS comes to end of life.

This Framework will operate at two levels - Level One, where any suitably qualified and eligible provider can submit details of all the apprenticeships they offer, and employers can then either direct award or, via Salisbury, conduct a further competition against their local needs. Level Two will be a smaller number of providers for a specific standard, appointed via a Further Competition, using a higher selection criteria published with each

ITT.

Both levels of listing are open across all our eligible public and third sector organisations. Level Two listed providers can be selected either by employer direct award or a further

Page 3 to 16

competition amongst those listed.

Any Provider applying to the Framework must meet all the pass/fail criteria listed on the Response Document, and must only submit responses via Salisbury's Bravo procurement portal.

All Providers must agree to the Framework terms and conditions published on the Bravo portal - amendments to those Terms will not be made for specific providers.

Interested providers must complete the relevant submission on Salisbury's Bravo procurement portal in order to be considered. Please note the final selection of providers to award is a decision for employers and this Framework does not represent a spend commitment by any organisation.

Providers will be able to apply for the initial opening of the Framework, and also for subsequent openings of the Framework to either declare new capability, apply for the first time, or respond to new Apprenticeship Standards as they are added to the listings.
