Access to the procurement documents is restricted. Further information can be obtained at

<http://redirect.transaxions.com/events/ZKre9>

Additional information can be obtained from the above-mentioned address

Tenders or requests to participate must be submitted electronically via

<http://redirect.transaxions.com/events/ZKre9>

I.6) Main activity

Railway services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Purchase of catering carts

II.1.2) Main CPV code

- 34911100 - Trolleys

II.1.3) Type of contract

Supplies

II.1.4) Short description

AWC require to purchase 431 2/3rd Atlas carts of the following dimensions:

a) Dimensions

- Overall (L x B x H): 540 x 328 x 1030mm
- Top Recess: 39mm There should be a means to restrain a drawer/slop bucket on the top of the cart, by way of handrails or similar (see picture for current)

b) Weight

Whilst rail does not have the same weight limitation of airlines, we expect that an empty cart weighs no more than:

- Empty: 18.6kg
- Capacity: 61.4kg
- Max gross weight: 80kg

c) The following are key features that are required:

- i. Two doors, you will need to state if the doors are left or right side hinged
- ii. Door should be able to be fully opened, flat against side of cart, and be held there by magnet.

- iii. Two way, four-pedal foot operated brake system,
 - iv. Powder coated doors of one colour. Tenderers will need to state if there are colour options
 - v. Three point turn lock, sealable by cable tie or similar
 - vi. At least 8 Internal runners as shown in Figure 1: Service Carts, spaced circa 7.2 mm apart, as shown in Figure 1: Service Carts. We believe these are based on normal Atlas runners, but in any event, they should support wire baskets and drawers, as shown in Figure 3: White Drawers and Figure 4: Wire Baskets (Review specification document)
 - vii. 1 internal Shelf, mid height in place of a runner, or an alternative way to give strength/support to the cart. Current approach shown in Figure 1: Service Carts. We want the positioning of any internal shelf to maximise the space available, so that there is minimal space loss due to the drawers and basket positioning, as per Figure 2, avoiding wasted space..
 - viii. External bumpers along the length of the cart (but not impeding door fully opening)
 - ix. Corner protectors on the 4 top corners (these can be fitted post delivery, but tenderers will need to state if these are or are not included.)
 - x. Cart top should be durable, flat and easily wipeable.
 - xi. All internal surfaces should be smooth, and easily cleanable for hygiene purposes (no hidden nooks, ledges etc)
- d) We do not require the carts to have temperature insulation.
- e) Our current fleet is fitted with 100mm Steinco as shown in Figure 1: Service Carts. We expect our new carts will have similar size and design, and the castors will require to traverse some rough terrain, such as rumble strips on platforms, or tarmacked areas. Therefore, they do need to be durable.
- f) Each cart will require to be uniquely identified through an aluminium asset tag riveted to the cart, and has the next due maintenance date on another riveted tag. Tenderers will need to state whether the carts come with, or without these already in place. We would also prefer our new carts to have a different colour to our current fleet, in order to aid identification of the two types.
- g) Please note that we require 431 carts, but believe this may not fully load all containers. We will therefore also request a priced option to avoid any part filled containers.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

Purchase of catering carts

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

24

This contract is subject to renewal

Yes

Description of renewals

We might need an additional 24 months renewal (2 years) subject to requirements.

So in total it could be a 2+2 years contract.

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated procedure with prior call for competition

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

IV.2) Administrative information

IV.2.2) Time limit for receipt of tenders or requests to participate

Date

15 April 2022

Local time

12:00pm

IV.2.4) Languages in which tenders or requests to participate may be submitted

English

Section VI. Complementary information

VI.1) Information about recurrence

This is a recurrent procurement: No

VI.4) Procedures for review

VI.4.1) Review body
