Description

This is a Provider Selection Regime (PSR) award notice under Direct Award Process A.

The awarding of this contract is subject to the Health Care Services (Provider Selection Regime) Regulations 2023. For the avoidance of doubt, the provisions of the Public Contracts Regulations 2015 and Procurement Act 2023 do not apply to this award.

This contract has been formally awarded; this notice serves as a notice of the award of the contract under the PSR.

Details of the award decision-makers: Consultant In Public Health.

There were no declared conflicts or potential conflicts of interest.

The aim of this provision is to increase cervical screening uptake within the city to bring it in line with national and regional averages. The provision will also focus on specific groups

where data observes lower uptake compared to the overall average. This may include analysis by age, ethnicity, and/or deprivation decile, depending on data availability. The

provision will seek to offer alternative appointment options outside of standard practice hours, for example, through evening or weekend clinics. It will also explore innovative digital

solutions to improve accessibility, such as the use of a 'choose and book' portal for appointment scheduling. Additionally, within the overall aim to increase citywide uptake, there will be a focus on the very lowest uptake practices with the aim to bring them up to city level average through additional enhanced support.
