II.1.4) Short description

Scottish Water (SW) is looking for Remote Telemetry Units (RTUs) suppliers.

The scope of the framework will include but will not be limited to the design, supply of RTUs and associated components, training, technical and development support.

The telemetry master station (TMS) is provided by Emerson and is Open Enterprise (OE) with specific SW variants. The TMS has been installed to meet SW requirements. The RTU manufacturer has to have certification issued by Emerson confirming their device is suitable for operation with SW TMS. The RTU device has to be capable of communicating with the TMS version 2.52 up to and including version 3.36.

It's anticipated that the TMS might change within the life of the framework and the requirement for RTU supply will be re-procured based on the TMS change.
