I.4) Type of the contracting authority

Regional or local authority

I.5) Main activity

General public services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Fly Tipping IoT Programme

Reference number

DN532298

II.1.2) Main CPV code

- 90000000 - Sewage, refuse, cleaning and environmental services

II.1.3) Type of contract

Services

II.1.4) Short description

The South London Partnership is working to deliver an exciting and innovative “Internet of Things” (IoT) project across its five member councils; Croydon, Kingston, Merton, Richmond and Sutton. This initiative is being funded by the Strategic Investment Pot (SIP) as part of the London Councils’ Business Rates Retention scheme, which is administered by the City of London Corporation.

This project will enable the London Borough of Sutton & Kingston Landlord Services to gain a more accurate insight into when fly tipping is occurring, in what volume and by whom.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 32000000 - Radio, television, communication, telecommunication and related equipment
- 34000000 - Transport equipment and auxiliary products to transportation
- 72000000 - IT services: consulting, software development, Internet and support

II.2.3) Place of performance

NUTS codes

- UKI - London

II.2.4) Description of the procurement

The South London Partnership is working to deliver an exciting and innovative “Internet of Things” (IoT) project across its five member councils; Croydon, Kingston, Merton, Richmond and Sutton. This initiative is being funded by the Strategic Investment Pot (SIP) as part of the London Councils’ Business Rates Retention scheme, which is administered by the City of London Corporation.

This project will enable the London Borough of Sutton & Kingston Landlord Services to gain a more accurate insight into when fly tipping is occurring, in what volume and by whom.

In support of Sutton & Kingstons strategic visions to make their boroughs a place that more people want to work / live and spend time in. The need to prevent fly tipping disrupting travel, residents and businesses is a key part to underpinning the generation of a positive impression for the borough.

A real time insight into the hotspots and incidents will empower the Council & Landlord Services Officers. It will help them move away from having to react to events or using educated guesses to knowing actually what is happening in its known problem areas.

The objective of this use case is to deliver a pilot programme that allows the SLP to test IoT Fly Tipping detection solutions and refine the scope and technical details before potentially rolling out to other problem locations across Sutton, Kingston and the other SLP partner boroughs.

Ultimately the goal is to reduce dramatically the number of fly tipping instances in the two boroughs initially participating, to therefore avoid the menace fly tipping brings and with associated costs to the Council & Landlord services plus the wider economy.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

12

This contract is subject to renewal

Yes

Description of renewals

Potential extension of 24 months in 2 12 month periods.

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Open procedure

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No
