Description

Defra is responsible for managing a confidential and sensitive project that is exploring options to deliver organisational change to support a long-term strategic objective. The project is complex, multi-year, and involves stakeholders who are accustomed to current arrangements and may be resistant even to the discussion of change.

We require an experienced Stakeholder Engagement Adviser to provide strategic advice and support in shaping and delivering an engagement approach that helps to build trust, address concerns, and guide stakeholders through a common-sense discussion of the options and their benefits/disbenefits, and potentially also a sensitive transition process. Defra has already completed stakeholder mapping but requires support in engagement planning, advisory services, and risk management.

Total value (estimated)

- £170,000 excluding VAT
- £204,000 including VAT

Above the relevant threshold

Contract dates (estimated)

- 16 July 2026 to 15 March 2027

Award decision date (estimated)

2 July 2026

Award criteria

Name	Description	Type	Weighting
Technical	35% of the quality weighting will be allocated to the technical criteria and questions 15% will be allocated to Virtual Pitch 10% will be allocated to Social Value	Quality	60.00%
Commercial Envelope	40% - Commercial Evaluation will use relative scoring methodology as set out in the bidder pack. All Suppliers who have been successful at stage 2 (virtual pitch) will be commercially evaluated. Suppliers will be required to provide a quotation for the work using the rates on the rate card which they will also be required to submit. Both will be covered by a single document "the pricing schedule". Both will need to correlate with one another	Price	40.00%

Name	Description	Type	Weighting
	<p>clearly demonstrating how the rates have been used to quote for the requirement. Rates on the rate card and the quote will be for specified grades/roles e.g. Director, which will be pre-determined by the contracting authority in order that all suppliers provide the same information for equal and fair evaluation. The commercial evaluation will be the total combined day rate on the rate card (e.g. All-day rates added together) + the total value of the quote excl non-staff costs. This recommended approach ensure that both the rate card and the quote are commercially evaluated. Non-staff costs on the quote will need to be reflected on the rate card as these will be fixed for the duration of the contract also but will not be commercially evaluated as non-staff cost may differ between suppliers.</p>		

Other information

Description of risks to contract performance

Risk that Ministerial Approval won't be given.

There is a risk that Ministerial approval of the overarching project won't be obtained in May/June. In this event the procurement may be withdrawn

Conflicts assessment prepared/revised

Yes

Procedure

Procedure type

Competitive flexible procedure

Competitive flexible procedure description

IMPORTANT PLEASE READ CAREFULLY BEFORE YOU CONTINUE - Please be advised this project is subject to the Ministerial approval (anticipated date May/June 2026). We reserve our right to withdraw the tender at any place in the procurement process. We ask that you bare this in mind when considering tendering for this opportunity.

Stage 1 - Selection Questionnaire Stage

This stage will include Yes/No questions to help down-select suppliers invited to full tender based on their responses to the questions which will focus on required skills, qualifications and experience. In addition to Yes/No questions, there will be some written responses which will be formally evaluated using the standard evaluation scoring criteria.

Suppliers must meet a minimum consensus score of 70 on the written questions in addition to passing all the Yes/No questions to be taken through to Stage 2.

All successful suppliers at stage 1 will be taken through to Technical Evaluation (stage 2).

Stage 2 - Full written tender submission

All successful suppliers from stage 1 (PSQ) will be invited to submit their written bid for the tender. This will be subject to them signing and returning the NDA within 5 working days of receipt. Failure to return a signed NDA within this timeframe will result in disqualification from the tender process. Tenders must agree to this as part of Stage 1.

They will be required at this stage to also submit their commercial bid however this will only be evaluated if they are successful at stage 2 and invited to stage 3 (Virtual pitch). Commercial submissions will be requested upfront to avoid delays at the next stage.

Stage 3 - Virtual Pitch

All suppliers will then be invited to present a virtual pitch on a specified question outlined in the bidder pack. The question will be based on a scenario and will help to demonstrate and provide confidence to the contracting authority that they have the capability to deliver the requirement to a high standard.

Stage 4 - Commercial Evaluation

All Suppliers who have been successful at technical stage 2 (virtual pitch) will be commercially evaluated,
