I.4) Type of the contracting authority

Ministry or any other national or federal authority

I.5) Main activity

Defence

Section II: Object**II.1) Scope of the procurement****II.1.1) Title**

A400M National Engine Contract 3

II.1.2) Main CPV code

- 50211212 - Aircraft-engine repair services

II.1.3) Type of contract

Services

II.1.4) Short description

The provision of in-service support services at Maintenance Level 2 on the TP400 engine for the A400M aircraft.

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £47,000,000

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKK - South West (England)

Main site or place of performance

Filton, Bristol

II.2.4) Description of the procurement

The A400M Project Team, part of the UK Ministry of Defence, intends to place a 3 year contract with options totalling a further 24 months, for the provision of in-service support services at Maintenance Level 2 (ML2) for the TP400 engine with Rolls-Royce PLC.
Contract Start date 01 October 2026

II.2.5) Award criteria

Price

II.2.11) Information about options

Options: Yes

Description of options

2 x 12 month options totalling a further 24 months

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated procedure without publication of a contract notice

- The products involved are manufactured purely for the purpose of research, experiment, study or development

- The works, supplies or services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

The Europrop International (EPI) consortium is tasked with designing, developing, manufacturing and supporting the TP400 engine to power the A400M aircraft. In order to provide in-service support the required technical services at ML2, a contractor would need certain there is specific access, technical know-how and specific interoperability with EPI required which could only be provided by an EPI member company, noting EPI's position as the TP400 Engine Design Organisation and the party responsible for providing TP400 ML3 support. In addition, the contractor operating ML2 support must hold Maintenance Approved Organisation Scheme (MAOS) approval, with a Military Aviation Authority (MAA) certified ML2 Repair Facility.

Rolls-Royce PLC are the only UK- based EPI member company with the specialist know-how, equipment and tooling required to provide ML2 support services for the TP400, including being the only operator with a fully accredited TP400 Engine Uninstalled Test Facility in the UK.

A key requirement of the ML2 In-Service Support is the required Turn Around Time (TAT) for ML2 in-service support services for the TP400 engine, which is critical to the operational output required and has been calculated based on the engineering tasks required. Any non-UK based provider of this service could not consistently meet the required TAT, due to transport and customs delays requiring additional time.

Rolls-Royce PLC are also the only operator to have a fully accredited MAA- certified ML2 Repair Facility with a number of installed turnover stands in the UK. This, together with their specialist knowledge, access to EPI and infrastructure to provide support services in line with technical requirements, means that they are the only operator able to conduct the ML2 support services for the UK's TP400 Engines.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

Section V. Award of contract/concession

Contract No

714141450

Title

A400M National Engine Support Contract 3

A contract/lot is awarded: Yes

V.2) Award of contract/concession

V.2.1) Date of conclusion of the contract

26 February 2025

V.2.2) Information about tenders

The contract has been awarded to a group of economic operators: No

V.2.3) Name and address of the contractor/concessionaire

Rolls Royce PLC

Bristol

BS34 7QE

Country

United Kingdom

NUTS code

- UKK - South West (England)

The contractor/concessionaire is an SME

No

V.2.4) Information on value of contract/lot/concession (excluding VAT)

Total value of the contract/lot/concession: £47,000,000

V.2.5) Information about subcontracting

The contract/lot/concession is likely to be subcontracted

Section VI. Complementary information

VI.4) Procedures for review

VI.4.1) Review body

Defence Equipment and Support, A400M Delivery Team

Bristol
