WCC 00002622

II.1.2) Main CPV code

- 45200000 - Works for complete or part construction and civil engineering work

II.1.3) Type of contract

Works

II.1.4) Short description

Worcestershire County Council has the statutory responsibility to ensure that the county's public rights of way network is properly mapped and maintained and the network is unobstructed and available for use by the public. An important part of the Council's work is replacing pedestrian foot and bridle bridges across the public rights of way network. This work is divided into two Geographical Areas, North and South, see Schedule 3. The number and sizes of bridges replaced each year can vary but is typically between 25 and 45 across the county, by far the majority of these are footbridges and it is generally evenly split between North and South. In most cases these are following reports from the public of bridges having failed or being close to the end of their serviceable life, so it is important the work is done in a timely fashion. The contract is divided into two area lots North and South the Council is looking to award two separate contracts.

II.1.5) Estimated total value

Value excluding VAT: £200,000

II.1.6) Information about lots

This contract is divided into lots: Yes

Tenders may be submitted for all lots
