- 09310000 - Electricity

#### **II.2.3) Place of performance**

NUTS codes

- UKD - North West (England)

#### **II.2.4) Description of the procurement**

This Notice is published by Electricity North West requesting interest from Distributed

Energy Resources (DERs) who have the ability to adjust the amount of energy they consume or generate upon instruction in line with Electricity North West's requirements. DERs are companies or individual customers capable of adjusting how much they consume or generate electricity can support the electricity distribution network at times of high electricity demand when the network is operating abnormally, and receive payment from Electricity North West in return. These DERs can be generators, consumers, and electricity storage connected to our networks that can increase or decrease exports or imports when instructed.

As the Distribution Network Operator for the North West of England, we are looking to use this flexibility to support how we operate our local networks, as an alternative to traditional approaches. The aim is to reduce the cost for electricity distribution networks in customer energy bills while ensuring that our network remains resilient, reliable and meets our customers needs.

Specific locational and capacity requirements will be published on <https://picoflex.com/>, and bidders should register here to be added to the Dynamic Purchasing System to participate.

#### **II.2.5) Award criteria**

Price is not the only award criterion and all criteria are stated only in the procurement documents

#### **II.2.7) Duration of the contract, framework agreement or dynamic purchasing system**

Duration in months

12

This contract is subject to renewal

Yes

Description of renewals

By agreement

---
