DPAYG Trials

ATOC Limited

UK4: Tender notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-007374

Procurement identifier (OCID): ocds-h6vhtk-04e84f

Published 27 February 2025, 11:49am

Scope

Description

Request for Proposals (RFP) for the provision of technical suppliers to support the potential development of

Digital PAYG trials on rail during 2025 and 2026.

Rail Delivery Group acting through ATOC Limited (ATOC) and working in conjunction with partners

including GBRTT, DfT, and train operating companies, is seeking proposals to support the development of

plans to run several DPAYG trails, involving a range of different suppliers and train operating companies

(TOCs) during 2025 and 2026. Trials will have fixed end dates, be delivered to a closed user group, and

run for a 9-month duration.

We expect the trials to operate using existing barcode ticketing technology together with location services

i.e. GPS, through a smartphone application. This will identify the passenger's departure station and they '

check-in' in-app to generate a mobile barcode that can be scanned at gatelines or on the train. Options to

end the journey could include barcode scan-out at existing gatelines; GPS identifying the exit station,

confirmed by an in-app 'check-out'; or GPS alone. The customer will then be charged the best fare for their

journey.

The trials will operate in urban geographical areas without existing or planned contactless card or

smartcard-based PAYG schemes.

Interested parties are invited to participate in the tender process through RDG's eProcurement system,

where they can access the full tender documentation and submit their proposals. For more details and to

respond to this notice, please visit the link below:
