Scope

Description

The main objective of this Framework Agreement is to provide a compliant route to market for Managed Neutral Vendor Services providers, to provide a holistic approach to the provision of the day-to-day service provision, service management responsibilities and functions. Acting as a strategic method for improving service operations and cutting expenses, minimising the risk of exposure to Beneficiaries of the Framework and ensuring value for money on all managed service requirements.

Services delivered under the Framework will capture and deliver all elements typically and specifically involved and/or associated with neutral vendor and fully managed services.

The resulting framework was conducted under the Procurement Act 2023 with a length of 4 years.

Maximum percentage fee charged to suppliers

1%

Framework operation description

Contracts will be awarded by running a mini-competition between suppliers appointed to the framework.

At call-off stage, Contracting Authorities may set out their local requirements, provided these remain within the scope and terms of the framework and contracts will be awarded based on the criteria set out in the mini-competition documentation.

Prices are based on a maximum management percentage fee submitted by suppliers at tender stage. These fees are the ceiling rate and any final prices must remain within this limit and may be further refined through mini-competition where appropriate.

Award method when using the framework
