Body governed by public law

I.5) Main activity

General public services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

ID 5424277 DoF LPS - Replacement of GNSS Network Processing Software

Reference number

ID 5424277

II.1.2) Main CPV code

- 72000000 - IT services: consulting, software development, Internet and support

II.1.3) Type of contract

Services

II.1.4) Short description

Within Land and Property Services Ordnance Survey of Northern Ireland (OSNI) is the directorate responsible for mapping Northern Ireland. Within OSNI the Geodetic Survey and Development team are responsible for maintaining and developing the Geodetic infrastructure and survey control frameworks which are essential for the accuracy of any survey work carried out in Northern Ireland by both public and private sector, including all mapping products created and maintained by OSNI. To support the surveying operations

within Land and Property Services and the use of GNSS within Northern Ireland, Ordnance Survey maintains a network of continuously operating GNSS reference stations. OSNI now wish to establish a contract with a single supplier to purchase GNSS network processing software that is fit for purpose, user friendly, capable of receiving all current and proposed GNSS signals, future proof and be compatible with current and future LPS systems.

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £203,608.54

II.2) Description

II.2.2) Additional CPV code(s)

- 48000000 - Software package and information systems
- 48517000 - IT software package
- 48326000 - Mapping software package
- 48326100 - Digital mapping system
- 38112100 - Global navigation and positioning systems (GPS or equivalent)

II.2.3) Place of performance

NUTS codes

- UKN - Northern Ireland

II.2.4) Description of the procurement

Within Land and Property Services Ordnance Survey of Northern Ireland (OSNI) is the directorate responsible for mapping Northern Ireland. Within OSNI the Geodetic Survey and Development team are responsible for maintaining and developing the Geodetic infrastructure and survey control frameworks which are essential for the accuracy of any survey work carried out in Northern Ireland by both public and private sector, including all mapping products created and maintained by OSNI. To support the surveying operations within Land and Property Services and the use of GNSS within Northern Ireland, Ordnance Survey maintains a network of continuously operating GNSS reference stations. OSNI now wish to establish a contract with a single supplier to purchase GNSS network processing software that is fit for purpose, user friendly, capable of receiving all

current and proposed GNSS signals, future proof and be compatible with current and future LPS systems.

II.2.5) Award criteria

Quality criterion - Name: AC1 Methodology and Implementation Plan / Weighting: 14.8

Quality criterion - Name: AC2 Contract Management and Business Continuity / Weighting: 5.2

Quality criterion - Name: AC3 Training Requirements / Weighting: 10

Quality criterion - Name: AC4 Social Value / Weighting: 10

Cost criterion - Name: AC5 Total Contract Price / Weighting: 60

II.2.11) Information about options

Options: Yes

Description of options

There is one option to extend the contract for a period of three years with a further option to extend for a period of two years.

The contractor is an SME

Yes

V.2.4) Information on value of contract/lot (excluding VAT)

Initial estimated total value of the contract/lot: £178,000

Total value of the contract/lot: £203,608.54

Section VI. Complementary information

VI.3) Additional information

The successful contractor's performance on the contract will be regularly monitored in line with the tender documentation. Contractors not delivering on contract requirements is a serious matter. It means the public purse is not getting what it is paying for. If a contractor fails to reach satisfactory levels of contract performance they will be given a specified time to improve. If, after the specified time, they still fail to reach satisfactory levels of contract performance, the matter will be escalated to senior management in CPD for further action. If this occurs and their performance still does not improve to satisfactory levels within the specified period, it may be regarded as an act of grave professional misconduct and they may be issued with a Notice of Unsatisfactory Performance and the contract may be terminated. The issue of a Notice of Unsatisfactory Performance can result in the Contractor being excluded from all procurement competitions being undertaken by Centres of Procurement Expertise on behalf of bodies covered by the Northern Ireland Procurement Policy for a period of three years from the date of issue.

VI.4) Procedures for review

VI.4.1) Review body

The UK does not have any such bodies with responsibility for appeal/mediation procedures. Instead; any challenges are dealt with by the High Court, Commercial Division, to which proceedings may be issued regarding alleged breaches of the PCR 2015 as amended.

Belfast

Country

United Kingdom

VI.4.3) Review procedure

Precise information on deadline(s) for review procedures

CPD complied with the Public Contracts Regulations 2015 and incorporated a standstill period (i.e. a minimum of 10 calendar days) at the point information on the award of contract was communicated to tenderers. That notification provided full information on the award decision. This provided time for the unsuccessful tenderers to challenge the award decision before the contract was entered into.
