### **II.2.4) Description of the procurement**

The Service includes the management of HWRCs operated by or on behalf of the Council which would provide facilities for residents of the Council's administrative area to deposit Household Waste inline with s.51 Environmental Protection Act 1990. The Council wishes to emphasise the waste hierarchy, specifically the need for a more comprehensive re-use and repair element of the Council's required waste management Service than is currently available.

The Contractor shall manage the Sites in accordance with applicable Laws and the Waste Management Licenses for the Sites issued by the Environment Agency. The contract duration is 5 years with a potential 2 year extension, however it is worth stating that the Council is planning to insource the Front Facing Service by 28 October 2026.

The Council wish to make a capital contribution for some elements of the site infrastructure (cabins, skips, ramps, 360 plant) that will transfer to the Council on the Insourcing Date (28 October 2026).

The Council expects the Waste Management Licenses to be transferred to the Contractor (from the incumbent service provider which presently provide a service similar to the Front Facing Service requirement advertised here for the Council) on completing the Contract following this procurement exercise. During the transition from the Contractor to the

Council it is the Council's intention to move to Standard Rules Environmental Permits for each of the Sites to substitute for the Waste Management Licenses. Should there be any delay in obtaining the Standard Rules Environmental Permits the Council may require the Contractor to continue providing the Front Facing Service inline with the Contract Terms.

The Contractor shall manage the Sites in a safe and cost effective manner, whilst prioritising and maximising the potential for re-use, repair, reclamation and recycling of Household Waste(s).

The Contractor shall manage the transport, recycling and disposal of Household Waste deposited at the Sites (including residual and garden waste streams where disposal shall be dealt with by the Council) for the full Contract Term.

The Council requires haulage services that operate in compliance with local planning conditions, operating permits/rules for the Sites and when accessing any off-taker disposal sites and applicable Laws (especially Laws concerning the environment and transport) for the full Contract Term.

A partnership approach to a re-use and repair arrangement is sought by the Council which is expected to be self-funding and any surplus revenue beyond covering the Contractor's costs in providing re-use and repair capacity shall be used to reinvest in that element of the Service.

#### **II.2.5) Award criteria**

Price is not the only award criterion and all criteria are stated only in the procurement documents

#### **II.2.6) Estimated value**

Value excluding VAT: £5,850,000

#### **II.2.7) Duration of the contract, framework agreement or dynamic purchasing system**

Duration in months

84

This contract is subject to renewal

#### **VI.4.3) Review procedure**

Precise information on deadline(s) for review procedures

Precise information on deadline(s) for lodging appeals: The Contracting Authority will incorporate a minimum 10 calendar day standstill period at the point information on the award of the Contract is communicated to tenderers. Applicants who are unsuccessful shall be informed by the Contracting Authority as soon as possible after the decision has been made as to the reasons why the applicant was unsuccessful. If an appeal regarding

the award of the contract has not been successfully resolved, the Public Contracts Regulations 2015 (as amended) provide for aggrieved parties who have been harmed or are at risk of harm by breach of the rules to take legal action. Any such action must be brought within the applicable limitation period. Where a contract has not been entered into, the Court may order the setting aside of the award decision or order the Contracting Authority to amend any document and may award damages. If the Contract has been entered into, the Court may, depending on the circumstances, award damages, make a declaration of ineffectiveness, order the Contracting Authority to pay a fine, and/or order that the duration of the Contract be shortened. The purpose of the standstill period referred to above is to allow the parties to apply to the Courts to set aside the award decision before the contract is entered into.
