II.1.4) Short description

The final date and time for the submission of bids is Friday, 1st April 2022 at 11:00am.

DO NOT apply directly to the buyer.

All tender information MUST be submitted through the Delta eSourcing Portal.

Brief Description of the requirement:

Aims

This study aims to identify current evidence in the land use and agricultural sectors, and evidence gaps in order to frame and develop a much larger programme of research. Furthermore, it will set out the available options to achieve net zero (or better) in agriculture and land use within the constraints of government's legal requirements, policy ambitions and aspirations. It aims to assess the implications of these potential solutions to identify which pathways are most acceptable to policy and public. The study should be undertaken and presented at UK scale.

The outputs of the scoping study will inform the development of a much larger, multi-annual cross Defra/BEIS research platform to further develop evidence in this space via targeted primary research, and the development of new data sets, tools and integrated models. This project will be separately tendered in lieu of the results of the present study.

Please ensure you review all attached information to ensure a full understanding of this requirement. All attachments can be found with the Document Uploads tab within the Delta eSourcing Portal.

This contract will be awarded based on the evaluation criteria as set out in the RFP document.

The Department for Business, Energy & Industrial Strategy (BEIS) will be using the Delta eSourcing Portal for this procurement.
