Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated without a prior call for competition

- The works, supplies or services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

The Service to which this procurement relates fall within Schedule 3 of the Public Contracts Regulations 2015 as amended by as amended by The Public Procurement (Amendment etc.) (EU Exit) Regulations 2020, (the "Regulations"). As such, the Contracting Authority does not intend to hold itself bound by any of the Regulations, save those applicable to Schedule 3 Services.

The Authority is currently in a transitional period with the expectation to be superseded as a statutory body, by an Integrated Care Board in late 2022. The organisation shall have a key function as part of the overall Integrated Care System. At the current time, longer-term strategies across all sectors are under discussion and longer term commissioning decisions and or procurements cannot take place until these legal arrangements are confirmed.

The Authority has therefore taken a decision to award a contract to the incumbent provider to manage critical risks and ensure consistency in provision of care that meet the needs of the population. These Services have historically been provided under an NHS Grant Agreement, due to their nature but the Authority has decided to move these onto a contract to support clinical quality oversight and to align with other main two MSE Hospices.

Additionally, the provider is considered most technically capable of providing the most economically advantageous solution to the Authority under the current environment whilst transitioning to the ICB, because the NHS is contributing to the overall costs towards all of the services within the contract being delivered by the provider already, and so gets a return on investment. The Authority is applying the NHS Standard Contract Terms and Conditions to support a combination of services, all of which are part funded a under a single clinical contract, to ensure appropriate clinical governance and service delivery quality as well as consistency of service to patients.

IV.1.8) Information about the Government Procurement Agreement (GPA)
