The aggregate AQP value is forecasted at £22,477,424 (including VAT) over a full year term, equating to £18,731,186 (excluding VAT), but there continues to be a zero value basis principle with no guarantee of volume.

These will be dealt with as Contract Variations in accordance with the NHS Standard Contract Terms and Conditions. The Authority deems any such variations are not substantial or material changes, as they occur due to external causes beyond the Authority's control, including changes in contract value driven by changes in patient volume. The Authority will publish appropriate Notices accordingly to communicate any such future changes to the market, once final.

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated without a prior call for competition

- The works, supplies or services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

The Service to which this procurement relates fall within Schedule 3 of the Public Contracts Regulations 2015 as amended by as amended by The Public Procurement (Amendment etc.) (EU Exit) Regulations 2020, (the "Regulations"). As such, the Contracting Authority does not intend to hold itself bound by any of the Regulations, save those applicable to Schedule 3 Services.

These contracts were previously let under an AQP model in 2018, to 33 various General Medical Practice providers between 30th October 2018 to 2nd April 2020 (with option to extend for a further 12 months until 2nd April 2021). This was on a zero value basis, with no guarantee of any volume. 'Call off' for a Provider's Services is initiated by the patient's choice of that Provider from a list (managed by the Commissioner) of all Providers holding an AQP Contract. The AQP was rolled over for a further year post the expiry date of the extension period, as an emergency due to the unforeseeable nature of events during the Covid pandemic, that were outside of the Authorities influence.

The Authority is currently in a transitional period with the expectation to be superseded as a statutory body, by an Integrated Care Board in late 2022. The organisation shall have a key function as part of the overall Integrated Care System. At the current time, longer-term strategies across all sectors are under discussion and longer term commissioning decisions and or procurements cannot take place until these legal arrangements are confirmed.

The Authority has therefore taken a decision to award a contract to the incumbent providers of MUCS under the AQP as they are considered to be the most technically capable providers in the current environment and within the geography of Basildon and Brentwood, whilst transitioning to the ICB, to ensure quality, safety and consistency in provision of care that meet the needs of the population during this transition period.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No
