United Kingdom

Region code

UKK11 - Bristol, City of

Internet address(es)

Main address

www.contracts.mod.uk

I.4) Type of the contracting authority

Ministry or any other national or federal authority

I.5) Main activity

Defence

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

£2,500,000.00

Reference number

705830450

II.1.2) Main CPV code

- 72261000 - Software support services

II.1.3) Type of contract

Services

II.1.4) Short description

The Lightning Delivery Team (LDT), part of the UK Ministry of Defence, intends to award a contract to BAE Systems (Operations) Limited ('BAES') to provide support to Mission Planning Environment (MPE) software integration. This will involve the running of software trials and developing reports to provide the Authority with evidence to support its safety assurance on the MPE software developed under the Lightning Programme. This evidence then forms the basis of the Authority's safety case approvals.

It is considered that this requirement can be placed using the Negotiated Procedure without prior publication of a contract notice pursuant to Regulation 16(1)(a)(ii) of the UK Defence and Security Public Contracts Regulations 2011. The Lightning Programme Prime Contractor, Lockheed Martin, will only share in-depth software details with BAES due to their position within the Programme. BAES possesses accreditation from LM and the US Government which enables them to access the software in accordance with security requirements. To conduct the level of safety assurance the Authority requires an independent organisation needs to have in-depth access to the software. No independent contractor other than BAES would have such access. Significant additional risk would be carried in the operation of the Lightning without the level of assurance in the software that is provided by BAES. BAES have a representative test environment in which this software can be integrated with Lightning hardware and software to provide further assurance on the new MPE software.

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £2,500,000

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKK11 - Bristol, City of

II.2.4) Description of the procurement

Services Contract to provide Software Integration support

II.2.5) Award criteria

Price

II.2.11) Information about options

Options: Yes

Description of options

The Contract contains option to extend the duration of the Contract. This includes Two option periods of One year in duration.

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated procedure without publication of a contract notice

- No tenders or no suitable tenders/requests to participate in response to negotiated procedure with prior publication of a contract notice
- The products involved are manufactured purely for the purpose of research, experiment, study or development

Explanation:

The Lightning Delivery Team (LDT), part of the UK Ministry of Defence, intends to award a contract to BAE Systems (Operations) Limited ('BAES') to provide support to Mission Planning Environment (MPE) software integration. This will involve the running of software trials and developing reports to provide the Authority with evidence to support its safety assurance on the MPE software developed under the Lightning Programme. This evidence then forms the basis of the Authority's safety case approvals.

It is considered that this requirement can be placed using the Negotiated Procedure without prior publication of a contract notice pursuant to Regulation 16(1)(a)(ii) of the UK Defence and Security Public Contracts Regulations 2011. The Lightning Programme Prime Contractor, Lockheed Martin, will only share in-depth software details with BAES due to their position within the Programme. BAES possesses accreditation from LM and the US Government which enables them to access the software in accordance with security requirements. To conduct the level of safety assurance the Authority requires an independent organisation needs to have in-depth access to the software. No independent contractor other than BAES would have such access. Significant additional risk would be carried in the operation of the Lightning without the level of assurance in the software that is provided by BAES. BAES have a representative test environment in which this software can be integrated with Lightning hardware and software to provide further assurance on the new MPE software.
