I.4) Type of the contracting authority

Body governed by public law

I.5) Main activity

Housing and community amenities

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

CHIC Optimised Retrofit Installations DPS 2022

Reference number

666187561

II.1.2) Main CPV code

- 45262640 - Environmental improvement works

II.1.3) Type of contract

Works

II.1.4) Short description

Communities & Housing Investment Consortium (CHIC), is seeking to develop a Dynamic Purchasing System (DPS) of Bidders of Domestic Energy Efficiency Retrofit Installation Services who are able to work in partnership with CHIC and its Members to develop Energy efficiency solutions to homes across the UK. The Optimised Retrofit project will see homes across the UK made more energy-efficient. The process will develop a solution that does not presently exist in the market and provide an effective route to market for pipeline projects from Housing Providers and develop a robust supply chain to deliver net zero energy (NZE) solutions.

II.1.5) Estimated total value

Value excluding VAT: £10,000,000,000

II.1.6) Information about lots

This contract is divided into lots: Yes

Tenders may be submitted for all lots

II.2) Description

II.2.1) Title

LOT 1 - Building Fabric

Lot No

1

II.2.2) Additional CPV code(s)

- 45321000 - Thermal insulation work
- 71313430 - Environmental indicators analysis for construction
- 45320000 - Insulation work
- 45261410 - Roof insulation work
- 45210000 - Building construction work
- 45211000 - Construction work for multi-dwelling buildings and individual houses
- 45223200 - Structural works
- 71315200 - Building consultancy services
- 71314200 - Energy-management services
- 71000000 - Architectural, construction, engineering and inspection services
- 71314300 - Energy-efficiency consultancy services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

Main site or place of performance

UNITED KINGDOM

II.2.4) Description of the procurement

This lot follows a “fabric first” approach and prioritises improvement of the thermal properties of the building fabric through the use of high levels of thermal insulation, including cavity wall, internal and external wall insulation, floor and roof insulation and airtightness which may include replacement of windows and external doors thereby cutting heating costs, energy use and CO2 emissions while improving comfort, health and safety of properties. Works may therefore also include upgrades for building safety

requirements in respect of fire and structural risk which may become relevant in the overall evaluation and inspection of the property. A range of measures is then employed to increase the efficiency of various systems (e.g. heating and hot water, lighting and electrical appliances) available through the relevant lots of this DPS.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £2,500,000,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

96

This contract is subject to renewal

No

II.2.9) Information about the limits on the number of candidates to be invited

Envisaged minimum number: 1

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

II.2.14) Additional information

To respond to this opportunity please click here: <https://www.delta-esourcing.com/respond/D7234G9DAG>

II.2) Description

II.2.1) Title

LOT 2 - Electrical Services and Renewables

Lot No

2

II.2.2) Additional CPV code(s)

- 09300000 - Electricity, heating, solar and nuclear energy
- 09330000 - Solar energy
- 09331000 - Solar panels
- 09331200 - Solar photovoltaic modules
- 45261215 - Solar panel roof-covering work
- 31100000 - Electric motors, generators and transformers
- 31158100 - Battery chargers
- 45310000 - Electrical installation work
- 50711000 - Repair and maintenance services of electrical building installations
- 71315200 - Building consultancy services
- 71314200 - Energy-management services
- 71000000 - Architectural, construction, engineering and inspection services
- 71314300 - Energy-efficiency consultancy services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

Main site or place of performance

UNITED KINGDOM

II.2.4) Description of the procurement

This lot focuses on reusing, refurbishing, recycling, and renewing electrical distribution equipment, improvement of lighting and electrical appliances, solar thermal and photovoltaic solutions and building management systems (BMS) that manage and control the mechanical and electrical services of buildings, thereby cutting running costs, energy use and CO2 emissions while improving comfort, health and safety of properties. Works may therefore also include upgrades for building safety requirements in respect of fire and structural risk which may become relevant in the overall evaluation and inspection of the property. Categories within this lot cover design, installation and maintenance associated with technologies adopted for a fully compliant and functioning system. A range of complementary measures can be employed to increase the efficiency of various systems available through the relevant lots of this DPS.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £1,500,000,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

96

This contract is subject to renewal

No

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

II.2.14) Additional information

To respond to this opportunity please click here: <https://www.delta-sourcing.com/respond/D7234G9DAG>

II.2) Description

II.2.1) Title

LOT 3 - Mechanical Services [Heating and Renewables]

Lot No

3

II.2.2) Additional CPV code(s)

- 09300000 - Electricity, heating, solar and nuclear energy
- 39715000 - Water heaters and heating for buildings; plumbing equipment
- 45331000 - Heating, ventilation and air-conditioning installation work
- 50720000 - Repair and maintenance services of central heating
- 50721000 - Commissioning of heating installations
- 71321200 - Heating-system design services
- 39721000 - Domestic cooking or heating equipment
- 42511110 - Heat pumps
- 45259300 - Heating-plant repair and maintenance work
- 35111500 - Fire suppression system
- 45351000 - Mechanical engineering installation works
- 50712000 - Repair and maintenance services of mechanical building installations
- 71315200 - Building consultancy services
- 71314200 - Energy-management services
- 71000000 - Architectural, construction, engineering and inspection services
- 71314300 - Energy-efficiency consultancy services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

Main site or place of performance

UNITED KINGDOM

II.2.4) Description of the procurement

This Lot will include suppliers who can provide participating authorities with access to a range of heating and/or renewable technologies. Suppliers may be technology specific or offer a range of heating and renewable technologies. This lot includes complementary technologies that optimise and enhance the benefits of the solution, e.g. voltage optimisation and building management systems (BMS) that manage and control the mechanical and electrical services of buildings, thereby cutting running costs, energy use and CO2 emissions while improving comfort, health and safety of properties. Works may therefore also include upgrades for building safety requirements in respect of fire and structural risk which may become relevant in the overall evaluation and inspection of the property. Categories within this lot cover design, installation and maintenance associated with technologies adopted for a fully compliant and functioning system. A range of complementary measures can be employed to increase the efficiency of various systems available through the relevant lots of this DPS.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £1,500,000,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

96

This contract is subject to renewal

No

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

II.2) Description

II.2.1) Title

LOT 4 - Mechanical Services [Ventilation]

Lot No

4

II.2.2) Additional CPV code(s)

- 45331200 - Ventilation and air-conditioning installation work
- 45331210 - Ventilation installation work
- 45259000 - Repair and maintenance of plant
- 45259300 - Heating-plant repair and maintenance work
- 45351000 - Mechanical engineering installation works
- 50712000 - Repair and maintenance services of mechanical building installations
- 71315200 - Building consultancy services
- 71314200 - Energy-management services
- 71314300 - Energy-efficiency consultancy services
- 71000000 - Architectural, construction, engineering and inspection services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

Main site or place of performance

UNITED KINGDOM

II.2.4) Description of the procurement

This lot focuses on provision of good indoor air quality and reduction of surface condensation through retrofit ventilation systems to improve whole-dwelling improvement to include building management systems (BMS) that manage and control the mechanical and electrical services of buildings, thereby cutting running costs, energy use and CO2 emissions while improving comfort, health and safety of properties. Works may therefore also include upgrades for building safety requirements in respect of fire and structural risk which may become relevant in the overall evaluation and inspection of the property. Categories within this lot cover design, installation and maintenance associated with technologies adopted for a fully compliant and functioning system. A range of complementary measures can be employed to increase the efficiency of various systems available through the relevant lots of this DPS.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £1,000,000,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

96

This contract is subject to renewal

No

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

II.2) Description

II.2.1) Title

LOT 5 - One-Stop Solution [All encompassing technologies].

Lot No

5

II.2.2) Additional CPV code(s)

- 09300000 - Electricity, heating, solar and nuclear energy
- 09330000 - Solar energy
- 71314200 - Energy-management services
- 71314300 - Energy-efficiency consultancy services
- 31100000 - Electric motors, generators and transformers
- 45320000 - Insulation work
- 45262640 - Environmental improvement works
- 45000000 - Construction work
- 45211000 - Construction work for multi-dwelling buildings and individual houses
- 71315200 - Building consultancy services
- 71000000 - Architectural, construction, engineering and inspection services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

Main site or place of performance

UNITED KINGDOM

II.2.4) Description of the procurement

This Lot covers all-encompassing technologies and will include suppliers who can provide a holistic solution, including but not limited to the technologies covered in all other lots for participating authorities through the provision of a variety of low/zero carbon technologies. This will enable organisations to reduce carbon emissions via a one stop solution and include consultancy services for advice, assessment, design, and co-ordination for installation, commissioning and maintenance of technologies and building management systems (BMS) that manage and control solutions adopted for a fully compliant and functioning system, thereby cutting running costs, energy use and CO2 emissions while improving comfort, health and safety of properties. Works may therefore also include upgrades for building safety requirements in respect of fire and structural risk which may become relevant in the overall inspection and evaluation of the property. A range of complementary measures can therefore be employed to increase the efficiency of various systems available and overall building safety.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £3,500,000,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

96

This contract is subject to renewal

No

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section III. Legal, economic, financial and technical information

III.1) Conditions for participation

III.1.2) Economic and financial standing

Selection criteria as stated in the procurement documents

III.1.3) Technical and professional ability

Selection criteria as stated in the procurement documents

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Restricted procedure

IV.1.3) Information about a framework agreement or a dynamic purchasing system

The procurement involves the setting up of a dynamic purchasing system

The dynamic purchasing system might be used by additional purchasers

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

IV.2) Administrative information

IV.2.2) Time limit for receipt of tenders or requests to participate

Originally published as:

Date

22 April 2022

Local time

3:00pm

Changed to:

Date

27 October 2028

Local time

11:00pm

See the [change notice](#).

IV.2.3) Estimated date of dispatch of invitations to tender or to participate to selected candidates

3 May 2022

IV.2.4) Languages in which tenders or requests to participate may be submitted

English

IV.2.6) Minimum time frame during which the tenderer must maintain the tender

Duration in months: 6 (from the date stated for receipt of tender)

Section VI. Complementary information

VI.1) Information about recurrence

This is a recurrent procurement: No

VI.3) Additional information

The contracting authority considers that this contract may be suitable for economic operators that are small or medium enterprises (SMEs). However, any selection of tenderers will be based solely on the criteria set out for the procurement.
