-

Procedure

Procedure type

Direct award

Direct award justification

Single supplier - intellectual property or exclusive rights

For the provision of a European Market Data and Analysis subscription.

The supplier is the only provider capable of supplying the data required with the level of granularity specified for this project. Market research has confirmed that no other suppliers can meet these specific requirements due to the exclusive nature of the data.

Without the required data, ongoing work would become inefficient and would hinder the ability to meet key project objectives. The unique and critical nature of this data is essential for the successful completion of the project.
