### **II.2.4) Description of the procurement**

3D Scanning and Modelling Services aim to provide:

- A more streamlined process than traditional 2D plan drawings
- Deliver up to date and accurate BIM, improving asset and property management as well as decision making
- Contributing to the Council's climate initiatives

The Service Provider is to offer end to end 3D Scanning and Modelling services. The Services will range from the undertaking of the scanning of buildings, creating desired BIM models and handover of point cloud data/storing of models for a designated period of time post project completion.

The Council has a range of buildings of varying size that will be required to be scanned, with the aim of completing 10 to 20 buildings per year depending on size and complexity of individual buildings. The service is required for four years. The Council may engage one or more providers depending on market availability which this PIN shall assist in understanding.

### **II.2.14) Additional information**
