Description

Rother District Council ('the Council') are progressing an exciting project to construct a 3-storey purpose-built medical building on land which they own. This will function as a GP Surgery, to be occupied by an existing GP Practice. The project has full planning permission in place along with all funding and other approvals necessary to allow its delivery. The project is part-funded by Government's Levelling Up Framework (LUF) fund.

The Council is looking to appoint a suitably qualified and experienced consultant to act as Employers Agent and Professional Quantity Surveyor to oversee delivery of the new Barnhorn Green Medical Centre (GP Surgery). The successful consultant will also support the Council with technical aspects of procuring and placing the main construction contract.

The project is to build a purpose-designed medical centre for occupation by the GP Partners. Design and specification of the building to date has been with the full engagement and approval of the GP Partners and Integrated Care Board of the NHS. The Council's intention is to procure a single Design & Build construction contract for delivery of the building including all external areas and ancillaries. Full details are available in the tender documents.
