II.1.4) Short description

Our Future Health aims to be the UK's largest ever health research programme. It is designed to help people live healthier lives for longer through the discovery and testing of more effective approaches to prevention, earlier detection and treatment of diseases.

Our Future Health aims to procure:

- secure and scalable public cloud infrastructure to support our health research programme
- a trusted research environment (TRE) to enable registered and approved researchers to access and use data within a secure environment
- a partner to manage the billing of cloud compute and storage costs for researchers using the TRE

Section VII. Changes

VII.1) Information to be changed or added

VII.2) Other additional information

In order to preserve as much of the stated word limits as possible for bidders' responses, where bidders have been asked to provide additional documents in support of specific responses to questions (for example, question 2.2 in the 'All Lots' sheet of the Award Questionnaires), Our Future Health suggests that such additional documents to be submitted are named as follows (and therefore these need not be directly referenced in bidders' responses to questions):

'[Bidder name] - Document requested in support of response to question 2.2 All Lots of Lot 2 Award Questionnaire'

(with wording of the named documents to be adjusted for context accordingly)
