II.1.4) Short description

Scottish Water (SW) wishes to enter into a framework agreement for the provision of innovative Low Carbon Kiosk (LCK) solutions. The framework will include the design, manufacturing, fabrication, on site assembly (if required) and delivery of both security and non-security rated low carbon kiosks and enclosures across Scotland, including highlands, islands and remote locations. To substantially differentiate the Low Carbon Kiosks from standard GRP/Steel kiosks bidders will be required to provide evidence as to the low carbon benefits/carbon savings of their kiosks including a detailed breakdown of embodied carbon. The framework will be for an initial period of 2 years with SW option to extend for a further 6 periods of 12 months. This framework is intended to include a variety of innovative low carbon solutions from a variety of suppliers. All LCK solutions proposed must be market ready and able to be ordered from the framework commencement date. The framework will thereafter provide the ability for additional products which meet the minimum criteria to be added by successful suppliers throughout the duration of the framework period. Further information in respect of the Scope and Specification is detailed within the tender documentation.
