### **II.2.4) Description of the procurement**

Prior to the award of these contracts, the current provider (ESS) had a contract with the local authority under which it provided a perpetual

licence to the local authority for the purpose of providing SIMS to the schools in the local authority's area, with associated support services.

ESS has now served notice to terminate that contract and requires that, in order to continue provision of SIMS, individual schools must

enter into direct contracts with ESS to receive SIMS as software as a service.

In order to bring about the transition, the local authority will enter into a Facilitation Agreement ("FA") with ESS under which nothing of

value is received by ESS and no material services are provided to the local authority; it is purely an administrative arrangement to effect the

transition. Each school in the local authority's area will enter into a School Contract ("SC") with ESS for the direct provision of SIMS as

software as a service, at substantially the same cost as before.

The highest value SC is 3,230 GBP and the lowest value SC is 55,312 GBP

The schools in the local authority's area whose governing bodies will enter into contracts with ESS are as follows:

## **Section IV. Procedure**

### **IV.1) Description**

#### **IV.1.1) Type of procedure**

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

This contract award notice is published on a wholly voluntary basis and without prejudice to the local authority's and the governing body of each individual school's position that no prior publication of a contract notice, and thus no competitive tender exercise, was required in respect of the Facilitation Agreement (FA) and/or the individual Schools Contracts (SC). Neither the local authority nor the governing body of any of the schools listed above accepts that the FA and/or the individual SCs are within the scope of application of Part 2 of the Public Contracts Regulations 2015 (as amended). (1) The FA simply puts in place an administrative mechanism to manage the transition of contracts from local authorities to schools and therefore has no 'value'. Each school is a separate contracting authority and each SC is a separate contract. The values of each SC is below the threshold in Reg. 5 (as reviewed pursuant to Reg. 5A) of the 2015 Regulations. (2) The services can only be provided by one particular economic operator (ESS) - competition is absent for technical reasons pursuant to Reg. 32(2)(b)(ii) of the 2015 Regulations. (3) All the schools in the local authority's area currently use ESS' SIMS product. It would take a minimum of 6 weeks to transition from ESS' SIMS product to another product. To avoid serious disruption to the school's functions, that transition has to take place over the long summer holidays. ESS served 90 days' notice to terminate current arrangements. It would not be possible, in the timescales imposed by ESS, for schools to tender for and purchase an alternative product and transition to it, without suffering serious disruption to essential services which would affect the ability of schools to continue to function and which may require schools to close. The urgency provisions pursuant to Reg. 32(2)(c) of the 2015 Regulations apply. Due to the short notice given by ESS, together with the time it would take to prepare a specification and to transition to a new product, the timescales for the open or restricted procedure, or competitive procedure with negotiation, cannot be complied with in the time available. It is intended in the future to advertise a competitive tender exercise for SIMS on an all-Wales basis, with transition to the new contracts resulting from such tender to coincide with the end of the 3-year term of the SCs entered into with ESS. Pre-tender market testing is likely to commence in the near future.
