II.2.5) Award criteria

Price

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

Serco is the only supplier of the Eclipse system and Eclipse is the only document management system which integrates NCRs and Actions as concluded by the tender action which determined our use of Eclipse from 2017. Significant advantages accrue from our use of Eclipse because it is widely used across the European space industry. ESA uses it on all its large projects, and it is also used by all the prime contractors in Europe (Airbus Defence and Space, Thales Alenia Space, and OHB) who are the immediate customers for many of our projects. Eclipse provides specific functionality for the easy export and import of collections of records and files between different instances of the tool suite; loading information into customer and ESA instances of Eclipse is required on multiple large projects in RAL Space and being able to do so natively from our own Eclipse server makes this straightforward and significantly improves our efficiency.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

Section V. Award of contract

A contract/lot is awarded: Yes
