## **Engagement**

### **Engagement deadline**

29 April 2025

### **Engagement process description**

Due to the complexities of this contract we wish to carry out a supplier open day as part of the pre market engagement scenario to help support potential bidders further understand

the service requirements.

During the open day the suppliers that submitted their interest to the force via the In-Tend portal Correspondence (Link provided in 'Scope' section above) will be able to come to the site all together using the police transportation from our Police Headquarters across to the new Investigative Hub at Spennymoor to see how the site operates and the resources that would be available to the winning bidder along with an introduction to the various teams and processes that have been created for the new site which will assist the supplier in understanding the force requirement.

They will be also given an opportunity to sit in front of a panel of Durham staff and get the opportunity to ask questions surrounding the upcoming ITT and general clarifications of the service required.

The clarification questions that were asked on the day will be taken away from the open day, collated and provided in the Tender notice with answers in a separate document (Clarification log) which details any and all the questions asked in the Preliminary Market Engagement to allow transparency and fairness to all potential bidders who were wishing to bid at this current stage.

Dates and times for this open day will be provided later in the stage.
