Criterion: n n

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated procedure without publication of a contract notice

- No tenders or no suitable tenders/requests to participate in response to negotiated procedure with prior publication of a contract notice
- The products involved are manufactured purely for the purpose of research, experiment, study or development

- The works, supplies or services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

The Vehicle Support Team (VST) – part of the Defence, Equipment and Support (DE&S) organisation within the UK Ministry of Defence (MOD) – intends to award to Oshkosh Defence LLC ('OSK') a 7-year In Service Support (ISS) contract for the provision of Engineering Support, Post Design Services, Spares and Repairs to the Wheeled Tanker (WT) and Medium Light Equipment Transporter (MLET) capabilities. The estimated value of contract is £55M VAT inc.

It is considered that the contract can be awarded using the negotiated procedure without prior publication of a contract notice pursuant to Regulation 16 (1)(a)(ii) of the UK Defence and Security Public Contracts Regulations 2011 for technical reasons.

The current ISS contract with OSK is due to expire on 31 Mar 2023. The platforms' Out of Service (OSD) date has recently been extended to 31 Mar 2030 necessitating a support arrangement to be secured. Only OSK, the Design Authority and Original Equipment Manufacturer (OEM) has access to the technical information, expertise, knowledge and know-how necessary to provide the Authority with assurance that the operational effectiveness and safety of the platforms will not be compromised. A third party would not be able to carry out this work without access to the necessary design and technical information which is required to ensure the goods are produced and provided to the correct technical specification, in terms of quality, performance and safety. The Services being procured under this contract are safety critical to the operation of the platforms and so must be produced to the correct specification. The platforms technical information is not available to the Authority and are owned by the Contractor in their role of OEM and the Authority does not have the necessary rights to provide that information to a third party.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

Section V. Award of contract/concession

A contract/lot is awarded: Yes

V.2) Award of contract/concession

V.2.1) Date of conclusion of the contract

24 March 2022

V.2.2) Information about tenders

The contract has been awarded to a group of economic operators: No

V.2.3) Name and address of the contractor/concessionaire

Oshkosh Defense LLC

Oshkosh

Country

United States

NUTS code

- US - United States

The contractor/concessionaire is an SME

No

V.2.4) Information on value of contract/lot/concession (excluding VAT)

Total value of the contract/lot/concession: £55,000,000

V.2.5) Information about subcontracting

The contract/lot/concession is likely to be subcontracted
