## **Section II: Object**

### **II.1) Scope of the procurement**

#### **II.1.1) Title**

Swindon, Fleming Way Bus Boulevard

Reference number

DN543807

#### **II.1.2) Main CPV code**

- 45200000 - Works for complete or part construction and civil engineering work

#### **II.1.3) Type of contract**

Works

#### **II.1.4) Short description**

The provision a new public transport interchange for Swindon town centre. The redevelopment of Fleming Way is part of the wider town centre regeneration works and aims to create one inclusive bus interchange that will accommodate all bus services in the town centre. This means that all buses which currently operate from two separate sites at Swindon Bus Station and Fleming Way, will all leave from a single site.

Key elements of the Project are as follows:

- Liaising and coordinating directly with various Statutory Utility Companies on behalf of the Council to deliver the programme of diversions.
- Low carbon, sustainable methods of construction and company credentials, in line with the ethos of this Project.
- Preparation for the installation of bespoke bus shelters.
- Installation of a new public toilet.
- Planting and initial maintenance period for the new trees and vegetation.
- Town centre location consideration i.e. management of pedestrian traffic around the closed site and works access.

### **II.1.6) Information about lots**

This contract is divided into lots: No

### **II.1.7) Total value of the procurement (excluding VAT)**

Value excluding VAT: £16,200,000

## **II.2) Description**

### **II.2.2) Additional CPV code(s)**

- 71540000 - Construction management services

### **II.2.3) Place of performance**

NUTS codes

- UKK14 - Swindon

### **II.2.4) Description of the procurement**

The redevelopment of Fleming Way is part of the wider town centre regeneration works and aims to create one inclusive bus interchange that will accommodate all bus services in the town centre. This means that all buses which currently operate from two separate sites at Swindon Bus Station and Fleming Way, will all leave from a single site.

Key elements of the Project are as follows:

- Liaising and coordinating directly with various Statutory Utility Companies on behalf of the Council to deliver the programme of diversions.
- Low carbon, sustainable methods of construction and company credentials, in line with the ethos of this Project.
- Preparation for the installation of bespoke bus shelters.
- Installation of a new public toilet.
- Planting and initial maintenance period for the new trees and vegetation.
- Town centre location consideration i.e. management of pedestrian traffic around the closed site and works access.
