II.1.4) Short description

Lincolnshire County Council currently delivers an integrated preventative and reablement service for children and adults with a sensory impairment both cognitive and acquired and their associated disabilities where applicable.

The Council is in the process of undertaking a review of current services and assessing the best way in which to re-procure a contract to deliver its Sensory Impairment Service. To that end a questionnaire has been drafted which seeks to understand the market's preferred approach to a number of important issues to inform the decision making process.

The responses from the questionnaire will be collated and considered as part of a review of the service which will feed into a core decision making team that will determine any re-commissioning options. We are keen to understand a true reflection of the market's views; your answers will have no influence on any further participation in this process, and all responses will be treated as confidential and commercially sensitive.

If you wish to receive a questionnaire could you please contact Marie.Kaempfe-Rice@lincolnshire.gov.uk. Alternatively if you would prefer to have a one to one discussion rather than completing the questionnaire then please also email to advise.
