Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

TSA Riley's contract is due to come to an end at the end of RIBA Stage 4 and it would be detrimental to the programme to lose the knowledge and experience that the existing consultants have developed in relation to the Stockyard project since the start of the programme.

The council does not currently have the existing expertise internally to provide the above services that would enable it to manage this programme effectively and so it is reasoned the most cost-effective way forward is to retain the services of TSA Riley for RIBA Stage 5, the construction phase and RIBA Stage 6, the defects liability period of the project.

The current decision notice CEX409 was approved to the end of RIBA Stage 4 at a cost of £79,092 and has been taken from the Stockyard project management allowance secured from the LUF programme. It is expected that retaining the services of TSA Riley through RIBA Stages 5 and 6 will cost an additional £113,959 and will also be taken from the Stockyard project management allowance secured from the LUF programme.

If approved the Council will be able to continue progressing the project through to the construction phase in spring 2025.

IV.1.8) Information about the Government Procurement Agreement (GPA)
