Section II: Object

II.1) Scope of the procurement

II.1.1) Title

CM2440 - Low value, low risk and low complexity, civils works.

Reference number

CM2440

II.1.2) Main CPV code

- 45000000 - Construction work

II.1.3) Type of contract

Works

II.1.4) Short description

Yorkshire Water Services (YWS) is intending to put in place a Framework for the delivery of low cost, low risk and low complexity, civils works. The works are to be carried out across the entire YWS estate, which may include Clean & Waste Water Treatment sites and surrounding catchment land, network areas and car parks.

All designs for any works within the Framework will be provided by YWS and there is no requirement for a CDM Principal Designer at any stage.

The framework is divided into 2 Lots.

For all works within Lot 1:

These will be split into regions, based on concentration of works and YWS owned land. Regions are defined as:

1. North Yorkshire
2. East Riding of Yorkshire
3. West Yorkshire
4. South Yorkshire

YWS are seeking suppliers who can cover a range of trades. The scope of works proposed to be delivered under the Framework will be small scale and responsive works, which may include, but are not limited to:

A. General Works:

Preparatory / preliminary works and site establishment facilities.

B. Siteworks:

Earthworks including simple excavations, trial pits, ground level reinstatement / regrading and removal of spoil. Minor demolition, dismantling and removal of existing small structures (Below the threshold where work would require a Building Act 1984: Section 80 Demolition Notice). Site access road repairs and minor modifications including pavements, hardstanding areas, kerbs, drainage features, steps, road markings and signs (excluding public highways). Fences (timber, rail, post and wire), gates and masonry / drystone walls.

C. Concrete Works:

Concrete plinths / bases for kiosks, motor control centres, chemical dosing skids, pumps and other plant items. Mass (unreinforced) concrete structures. Simple below ground structures such as manholes, valve chambers, cable draw pits and pipe thrust blocks. Concrete / masonry cutting and coring.

D. Pipework:

Gravity process pipework repairs and minor modifications to existing pipework. Drainage pipework including new pipework and repairs/modifications to existing pipework. Below ground cable ducts.

E. Building Works:

Brickwork and blockwork construction. Building works including brickwork and blockwork repairs and modifications. Roofing repairs, door frame installation, waterproofing, painting and decorating. Timber and joinery work. Non-structural concrete surface repairs and coatings, metal corrosion repairs and application of corrosion protection products.

For works within Lot 2:

This will include all of the roles and responsibilities within Lot 1, with an expectation that contractors are able to cover the entire Yorkshire Region.

Works within Lot 2 will also have a requirement for appointing a CDM Principal Contractor and the ability to subcontract work.

The final award of lots is at YWS discretion, based on the offer that represents the Most Economically Advantageous Tender

To express an interest and be invited to qualify for the process, please contact David Archer at david.archer@yorkshirewater.co.uk. Following the closing of the Contract Notice, all suppliers that have expressed an interest to qualify will be sent the Qualification Documents

II.1.6) Information about lots

This contract is divided into lots: Yes

Tenders may be submitted for all lots

II.2) Description

II.2.1) Title

Simple civils work comprising low complexity; low risk activities without CDM Principal Contractor appointment

Lot No

1

II.2.2) Additional CPV code(s)

- 45111100 - Demolition work
- 45111200 - Site preparation and clearance work
- 45111210 - Blasting and associated rock-removal work
- 45111212 - Rock-removal work
- 45111213 - Site-clearance work
